May 16, 2014

Intermec SF51 Retirement Notice

This notice serves as formal communication of Honeywell Scanning & Mobility's intent to discontinue the manufacturing of the legacy Intermec SF51 Cordless Scanner.

Regions Affected:

- Asia Pacific (AP)
- Latin America (LA)
- Europe, Middle East, India, Africa (EMEIA)
- North America (NA)

Reason for Retirement:

The SF51 has been shipping since 2004 and several main components are reaching their end of life. Intermec by Honeywell was able to place a last time buy order to fulfill SF51 demand through May 31, 2014. As a result, the last customer ship date will be June 2014, subject to product availability.

SF51 Cordless Scanner

Part Number	Description
270 – 099 - 004	Kit, SF51C02100, Chrgr, Lvl V PS, BT USB Adp
270 – 103 - 004	Kit, SF51C02100, CHARGER, LVL V PS (NA/ EMEA radio. Order power cord separately.)
SF51C02100	SF51 with PDF with belt clip, NA/EU/AUS/NZ (NA/EU/Australia/New Zealand)
SF51C02200	SF 51 with PDF with belt clip, Asia (Asia)

Recommended Replacement Product

The Intermec by Honeywell **SF61B** rugged mobility handheld scanner is the replacement product for the retiring SF51. The SF61B sets a new class standard for performance, durability and choice for the most mobile of workers. All standard configurations will start shipping from our distributors in **mid-May 2014**.

The SF61B uses a similar compact "mobility" form factor that made the SF51 so unique. SF61B will be available with the latest scan engines: EV14+ with Vesta for 1D scanning, and EA30/EA31 for best-in-class 2D scanning. With a Bluetooth Class 1 radio, the SF61B easily pairs to iOS®, Android® and Windows Mobile® devices. Thanks to an impressive IP65 rating and the ability to withstand 26 drops to concrete from 2 m (6.5 ft), the SF61B is the most rugged Intermec by Honeywell handheld scanner available.

The SF61B is also supported by a wide range of accessories to match any type of application and environment. Most of SF51 accessories are compatible with the new SF61B.

The SF51 retirement schedule will be as follows:

Timeline of Events:

Last Time Buy	Honeywell will not accept hardware or service contract orders after this date	May 31, 2014
Last Time Ship	Honeywell will not ship product after this date	June 2014

Service

Under normal conditions, Intermec by Honeywell supports a product for a minimum of 3 years, though typically longer, after product retirement. Our ability to continue support after the initial three year period is dependent upon availability of spare parts and vendor obsolescence issues that are beyond Intermec's control.

Contractual Agreements

Individual customer contractual agreements for these products are outside the bounds of this retirement notice. Intermec by Honeywell will endeavor to support these agreements to the best of its abilities.
