SR31T

Accessory Guide

Stands

Accessory Name	Part Number	Description
Adjustable Stand, Gray Color	SR31-STA-0001	Raised, adjustable stand for use with the SR31T scanner. Ideal for using the scanner in handsfree auto-trigger "presentation mode." A simple set-screw allows for adjustment of the scanner angle to accommodate different scanning use cases and mixed merchandise. Small, weighted base minimizes used countertop space. Stand can be fixed-mounted to a countertop surface (however, mounting screws for fixed-mounting are not included).
Adjustable Stand, White Color (Disinfectant Ready for Healthcare Environments)	SR31-STA-H001	Raised, adjustable stand for use with the SR31T scanner. Ideal for when using the scanner in handsfree auto-trigger "presentation mode." A simple set-screw allows for adjustment of the scanner angle to accommodate different scanning use cases and mixed merchandise. Small, weighted base minimizes used countertop space. Made of disinfectant-ready plastics to withstand wipe-downs from common hospital disinfectants. Stand can be fixed-mounted to a countertop surface (however, mounting screws for fixed-mounting are not included).
Gooseneck Stand, Gray Color	SR31-FLX-0001	Raised, "gooseneck" stand for the SR31T scanner offers maximum adjustment flexibility, while still holding the scanner securely in place. Ideal for using the scanner in handsfree auto-trigger "presentation mode." Small, weighted base minimizes used countertop space and prevents scanner tippage. Stand can be fixed-mounted to a countertop surface. Includes a set of four double-sided, adhesive foam nubs for fixed mounting.

Cables and Power

Accessory Name	Part Number	Description
USB Interface Cable	SR31-CAB-U001	This USB interface cable provides connectivity between the scanner and host device. Straight cable, 2 meters (6.5 feet) in length.
USB Interface Cable, Powered	SR31-CAB-U002	This USB interface cable provides connectivity between the scanner and host device. Straight cable, 2 meters (6.5 feet) in length. Includes a power supply plug-in, but separate external power supply (851-089-306) must be purchased separately.
Serial Interface Cable, Powered	SR31-CAB-R001	This serial (RS-232) interface cable provides connectivity between the scanner and host device. Straight cable, 2 meters (6.5 feet) in length, with a 9-pin female connector. Includes a power supply plug-in, but separate external power supply (851-089-306) must be purchased separately.
KBW Y-Cable	SR31-CAB-K001	This keyboard wedge connects between the keyboard and host computer. Y-cable, 2 meters (6.5 feet) in length. Includes a power supply plug-in, but separate external power supply (851-089-306) must be purchased separately.
Universal Power Supply	851-089-306	This 5V DC power supply provides scanner power for use when host device power alone is insufficient. Includes ferrite (level V). Country-specific line cords must be purchased separately.
